CLAIMS

What is claimed is:

1. 1. A method for driving navigation to a particular web site, comprising the steps
2. of:
3. (a) detecting a docking of a client device of a user with a computer;
4. (b) selecting a web page pre-designated to open upon docking of the client device;
5. (c) downloading the pre-designated web page; and
6. (d) displaying the web page on a display of the computer.

1. 2. A method as recited in claim 1, wherein the client device is preset to open the
2. pre-designated web site.

1. 3. A method as recited in claim 1, wherein the user is allowed to set the pre-
2. designated web page.

1. 4. A method as recited in claim 1, wherein the client device is selected from the
2. group consisting of: a second computer, a scanner, a portable computing device,
3. a telephone, a pager, and a facsimile machine.

1. 5. A method as recited in claim 1, wherein the web page presents information
2. relating to a use of the client device.

1. 6. A computer program product for driving navigation to a particular web site,
2. comprising:
3. (a) computer code for detecting a docking of a client device of a user with a
4. computer;

5 (b) computer code for selecting a web page pre-designated to open upon docking of

6 the client device;

7 (c) computer code for downloading the pre-designated web page; and

8 (d) computer code for displaying the web page on a display of the computer.

1 7. A computer program product as recited in claim 6, wherein the client device is

2 preset to open the pre-designated web site.

1 8. A computer program product as recited in claim 6, wherein the user is allowed

2 to set the pre-designated web page.

1 9. A computer program product as recited in claim 6, wherein the client device is

2 selected from the group consisting of: a second computer, a scanner, a portable

3 computing device, a telephone, a pager, and a facsimile machine.

1 10. A computer program product as recited in claim 6, wherein the web page

2 presents information relating to a use of the client device.

1 11. A system for driving navigation to a particular web site, comprising:

2 (a) logic for detecting a docking of a client device of a user with a computer;

3 (b) logic for selecting a web page pre-designated to open upon docking of the client

4 device;

5 (c) logic for downloading the pre-designated web page; and

6 (d) logic for displaying the web page on a display of the computer.

1 12. A system as recited in claim 11, wherein the client device is preset to open the

2 pre-designated web site.

1   13.   A system as recited in claim 11, wherein the user is allowed to set the pre-

2   designated web page.

1   14.   A system as recited in claim 11, wherein the client device is selected from the

2   group consisting of: a second computer, a scanner, a portable computing device,

3   a telephone, a pager, and a facsimile machine.

1   15.   A system as recited in claim 11, wherein the web page presents information

2   relating to a use of the client device.
